

# MXP 153

Type I Ambulance

## COMFORT IN EVERY CLIMATE

When extreme conditions push your team to the limit, reliability is non-negotiable. The MXP 153 is engineered for first responders operating in the harshest environments — performing dependably in both severe cold and extreme heat. Built on our proven Type I platform, it delivers exceptional thermal management, structural durability, and consistent performance no matter the climate.

Featuring a dual-evaporator HVAC system, closed-cell insulation, and precision airflow management, the MXP 153 stabilizes interior temperatures, protects critical equipment, and maintains patient comfort when unpredictable conditions demand the most from your unit.

**FUTURE FOCUSED. TRUSTED ON EVERY CALL.**

## KEY FEATURES:

- **Engineered for Extreme Climate Control**  
Industry-leading HVAC delivers rapid temperature control for crews and patients in both extreme heat and severe cold.
- **Exclusive HVAC Airflow System**  
Featuring separate hot and cold air ducting for improved patient comfort.
- **Efficient Insulation Package**  
Polyurethane closed-cell insulation is sealed within the wall structure and protected by a thermal barrier to limit heat transfer. Clean, durable, and environmentally safe.
- **Configured for Your Operations**  
Choose from multiple interior floor plans, purpose-built for your service demands.
- **High-Visibility Flush Mount Windows**  
Sleek, leak-resistant design that maximizes visibility and reduces maintenance costs.
- **MMC Multiplex Electrical System**  
Centralized control of lighting, climate, vehicle systems, and diagnostics.

## ECOSMART FEATURES:

- **Economically and Ecologically Smart**  
Demers EcoSmart Technologies reduce operating costs, fuel consumption — maximizing your fleet investment.
- **Lightweight All-Aluminum Design**  
Engineered for durability with less weight — reducing fuel consumption, chassis wear, and long-term operating costs.
- **Anti-Idling System**  
Powered by the Demers Electronic Management System to cut engine idling, lower fuel costs, and reduce environmental impact.
- **Optional Aerodynamic Roof Design**  
Signature roof design promotes fuel savings while integrating durable, long-life LED warning lights.

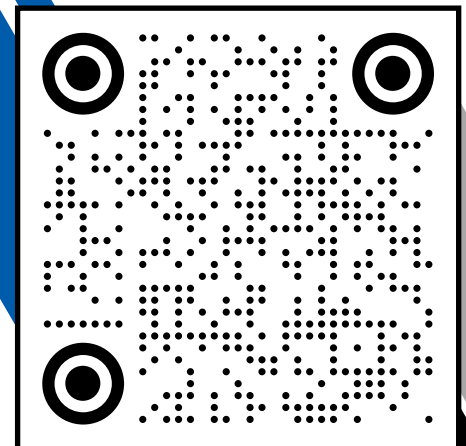

## MXP 153 SPECS:

Chassis	Ram 4500/5500   Ford F450/550
Drive Type	2x4 or 4x4
Overall Length*	292" to 326"
Overall Width	95"
Overall Height*	113"
Interior Headroom	72"
Wheelbase*	168.5" to 203"
Avg. Payload Capacity	Up to 6,000 lbs

\*Depending on chassis selection, total length, height, and wheelbase of vehicle may differ according to chassis and suspension.
