KEY FEATURES

- **Uncompromising Crew Safety**
  Proven crash protection and all-aluminum construction — built to Demers quality & safety standards on every unit.
- **Lower Cost of Ownership**
  Designed for reduced fuel & maintenance costs—ideal for budget-conscious agencies.
- **MMC Multiplex Electrical System**
  Centralized control of lighting, climate, vehicle systems, and diagnostics.
- **Integrated Touchscreen Control Consoles**
  Front and rear touchscreens provide intuitive system control, improving crew efficiency and workflow.
- **Streamlined Patient Compartment Layout**
  Integrated oxygen storage and modular compartments keep essential equipment organized and accessible—without unnecessary complexity.
- **Built to the Highest Standard**
  65+ years of experience with full KKK-A-1822F, CAAS GVS and FMVSS compliance—ISO 9001:2015 & Ford Pro Upfitter certified.

EFFICIENT BY DESIGN

This focused configuration prioritizes clinical functionality, ease of operation and lower total cost of ownership—making it an ideal choice for fleet expansion and transport operations where quality and value matter.
